Portfolio

portfolio-melikaels-projects.vercel.app

Dedicated Frontend Developer with 2 years of experience specializing in React and Next.js. Progressed rapidly from an internship to a core developer role within the Intelligent Travel Systems (ITS) sector. Proficient in transforming complex data into intuitive, responsive web applications using modern UI libraries including Material UI, Tailwind CSS, and Shadcn UI. Passionate about writing clean, maintainable code and delivering seamless user experiences.

Work Experience

Front-End Developer

Atripa (Intelligent Travel System) (www.atripa.ir) (Mashhad)

Mar 2024 - Apr 2026

- Built and maintained the Atripa web application, a comprehensive B2C flight and accommodation booking platform, utilizing React and Material UI.
- Integrated an AI-powered itinerary generator into the main booking site, seamlessly mapping personalized travel plans based on user preferences and improving user engagement by 30%.
- Developed a scalable B2B travel service platform using Next.js, TypeScript, Tailwind CSS, and Shadcn UI, enabling smooth interactions for corporate travel partners.
- Reduced administrative task time by 8 hours weekly by engineering a robust internal Admin Panel with Next.js and TypeScript for managing booking data, user flows, and platform operations.
- Collaborated closely with designers for pixel-perfect UI implementations across all products, and with backend developers to optimize API integrations—utilizing React Query caching to eliminate redundant calls and significantly reduce page load times.
- Engineered a Next.js/TypeScript MDX blog and contributed to its open-source codebase, optimizing the Persian content creation workflow by integrating MDXEditor to provide advanced rich-text formatting, media embedding, and comprehensive block-level controls
- Leveraged AI tools (Cursor, Claude, GitHub Copilot) to accelerate development workflows — using them for debugging, learning new technologies, researching best practices, refactoring and optimizing code, and improving overall code quality.

Education

Bachelor in Computer Engineering

Islamic Azad University of Mashhad

Sep 2019 - Feb 2024

Grade: A

Courses

Meta Front-End Developer Professional Certificate

Coursera

Aug 2023 - Apr 2024
